PROFILE

I am eager to contribute to a professional environment where I can apply my knowledge, gain hands-on experience, and continuously improve my skills. My focus is on learning and personal growth rather than salary.

WORK EXPERIENCE

Intern Developer

01/2024 - 04/2024

FPT Software

- Took part in the development of an Intern & Training Management System for the company.
- Was in charge of both front-end and back-end implementation.
- Tasks involved working with C#, ReactJS, and PostgreSQL to support intern and training schedule management.
- Also contributed to technical documentation and functionality testing.
- Team size: 43

Front-end Developer

08/2024 - 04/2025

Koine

- Contributed to a web and mobile application aimed at distributing sexual education courses for parents and children.
- The live product is available at: <https://koine.id.vn>
- Front-end development was executed using Next.js for the web and React Native for the mobile version.
- Focus was placed on building UI components, responsive layouts, and improving user interaction.
- Backend tasks included supporting API implementation using Node.js and PostgreSQL.
- Actively participated in documentation, testing features, and fixing bugs.
- Team size: 4

EDUCATION

FPT University

2021-2025

Bachelor - Software engineer
GPA: 3.1/4.0
